Picture Making— A Pleasant Diversion

There is a peculiar fascination in the art of picture making. It makes its appeal to every one—so no doubt you have been considering the idea of getting a camera, even if you haven't made a decision as to the kind. Spring is the ideal season for beginning. All of the best photographic months are ahead. We are agents for

Eastman Kodaks and Supplies

and carry a complete stock. This will make the matter of selection easy for you. We are always glad to aid amateur photographers in every way possible. Come in and have a camera talk.

Cameras from \$1.00 up, and everything in Photo Supplies.

The Rev. A. J. Patstone spent Sunday, May 31st, in Ponoka with the Bishop of Edmonton, who visited the town for Dedication and Confirmation services. After the end of June there will be a resident minister.

Campers' supplies, such as Cots, Mattresses, Blankets and Stoves, at Morrison & Johnston's, Ltd.

Special value beautiful Silver Sugar Holder with 12 Teaspoons hung around the edge, \$6.00—Denike & Bulger, Jewelers.

The Anglican Church is busy in Calgary nowadays. Last week over two hundred delegates of the Women's Auxiliary met to confer about their work and organization. The Lacombe delegates, Mrs. Jones, Mrs. Hall and Mrs. Patstone, report splendid and inspiring meetings and the best of hospitality. Next week the Synod of the Diocese meets in the city, and Lacombe will be represented by Rev. A. J. Patstone and Col. J. J. Gregory.

A mock W.C.T.U. convention will be held at the Methodist church on Friday afternoon, 12th inst., from 2:30 to 5 o'clock. There will be several interesting papers and discussions, interspersed by musical selections. The object is to bring information along lines of temperance and moral reform to many who have not the opportunity of attending a regular convention. This society is interdenominational, and a cordial invitation is extended to everyone interested in the work.

The Calgary News-Telegram appeals to those who have sold farms in the oil belt at fabulous prices to put some of the money into other farms, and thus help down the cost of living for the benefit of the incipient millionaires who have bought their former farms. Maybe they will do it, but the chances are they won't. The fellow who has tried his hand at farming for his own benefit cannot often see the fun of doing it for the benefit of somebody else.

The Department of Agriculture at Ottawa has available for free distribution upwards of two hundred publications, including reports, bulletins and circulars. These have been issued from time to time by the several branches, and may be procured on application to the Publications Branch of the Department of Agriculture at Ottawa.

Phone 95. THOS. THORP, Prop. Box 135

The country is full of the genus hobo at the present time, and hardly a day goes past but from three to a dozen are moved out of town by the police. Every freight train from north or south brings in an addition to the hobo family, and unless work becomes more plentiful soon, the government will have a job on its hands providing for them.

We have just received word that J. F. Killam, well known to Lacombe citizens, has successfully passed for his degree of B.S.A. from the Oregon State Agricultural College, Corvallis, Oregon. Mr. Killam is also a graduate of the Connecticut Agricultural College. He intends making floriculture his specialty.

The local detachment of police received a wire from Calgary on Wednesday midnight, that the desperadoes of the Amisk murder were at Bashaw, about thirty miles east of here. Despite the fact that it was raining, the police procured a car and made the distance in quick time. The object was to bring information along lines of temperance and moral reform to many who have not the opportunity of attending a regular convention.

A young man who was beating a ride on the C.P.R. on Wednesday last, and the misfortune to lose one of his feet while alighting at the north end of the platform. The man had got on the blind baggage at Edmonton, and the long midnight ride had chilled him to such an extent that he did not have full use of his limbs when attempting to make his getaway. He was taken to the hospital and Dr. Hynes amputated the toes of his left foot. He is doing well.

ANGELICAN CHURCH.
Sunday, June 14—Services in Lacombe, 11 a.m. and 7 p.m. Service at Bentley at 11 a.m.

HORSE STOLEN.

On Friday last, during the early morning hours, a mare belonging to Mr. Attrell, four miles east of town, was stolen by parties at present unknown. The police are searching for the animal, and anyone knowing of her whereabouts is requested to communicate with Corp. Wells, R.N.W.M.P., Lacombe. The animal is a bay mare, about 8 years old, and heavy in foal, with cut left foreleg, hind legs white, black mane and tail. It has probably been turned loose or left at some farmer's place.

A Good Watch A Trusty Servant

Let us talk good watches. You all know such names as Longines, Waltham, Elgin, Hamilton, Howard. Your father before you knew them likely. Been getting cheaper since, though, and yet better.

We have an excellent 15 jeweled watch in screw nickel case, at \$5.50. For a lifetime watch at a fair price none can beat our Longines at \$9.00. All the steel parts are of special hard spring temper; not hard enough to break easily; not soft enough to bend or wear. Strong screw silvered case, warranted fully satisfactory to the wearer.

Denike & Bulger
Jewelers, Lacombe.
"The Store of Worth and Beauty."

WILL START GAS WELL.

Frank Vickerson this week received word from Mr. Martin, Manager of the International Supply Co., who are getting down a number of gas wells at Medicine Hat and other Alberta points, and who has the contract for the drilling of the gas well at Lacombe, that he will be here on Friday or Saturday. He reports that he has secured a drilling rig in the south, and it is expected that operations will be commenced here within the next ten days. The citizens will be pleased to learn that the Brick Company will proceed at once to explore for gas, as in the opinion of many the chances here are good.

HAIL INSURANCE.

From all parts of Alberta applications are pouring in to the Farmers' Mutual Hail Insurance Company, whose head office is Lacombe, and Manager Rutledge reports that he is more than satisfied with the way the farmers are taking the matter up. Although only established a little more than four months, they now have over three quarters of a million dollars insurance in force, and before the end of June it is anticipated that the company will run over two million dollars. The farmers so widely appreciate the fact that hail insurance at cost is better than paying high premiums to old line companies, a great amount of which goes to paying high priced officials. The Farmers' Mutual Hail Insurance Company of Iowa is one of the oldest and strongest hail companies in the United States, having been in business there for more than twenty years, and have given general satisfaction. That the company is a safe and reliable one in which to insure, is guaranteed by their heavy cash deposit with the Alberta Government, and all who take advantage of the mutual insurance provided can rest assured that in case of loss their claims will be paid in full.

Rainy Creek News

Rain has been the order of the day lately, and everyone is glad to see the sun shine again. Jud Carritt is improving the looks of his place by setting out a lot of spruce trees. Others should follow suit. Mr. and Mrs. Clarence Stanley spent Sunday at Brookley at the home of his brother, E. S. Stanley. Leslie Peterson, who has been working for J. C. Carritt the past month, returned to his home in Lakeside district the latter part of last week. Mr. and Mrs. B. Danc and children visited friends in Jones Valley over Sunday.

By-Law

A By-law of the Town of Lacombe in the Province of Alberta, to provide for raising by way of Debuture of the sum of \$3,500.00 to be expended in defraying the cost of purchasing and installing a boiler for the present existing Electric Power Plant of the said Town.

Whereas it is considered to be desirable and necessary that the Town of Lacombe, aforesaid, borrow for the above mentioned purpose the sum of \$3,500.00 to be repaid during the period of twenty years from the date upon which this enactment takes effect, and bear interest at the rate of 6 per cent. per annum and that the said principal sum, along with in-

terest thereon, at the rate aforesaid be made repayable in twenty equal aggregate yearly instalments of \$306.13 each, as to both principal and interest during the currency of the aforesaid term of twenty years.

And whereas the amount of the whole rateable property in the said Municipality according to the last revised assessment roll thereof is \$696,435;

And whereas the total amount of the existing debt of the said Municipality outside the debt due for current expenses of the year 1914 is \$70,140.21, of which no part is in arrears;

And whereas it is expedient that the enactment come into force and take effect on the 7th day of July, A.D. 1914, and that the whole of the obligations to be issued for the repayment of the aforesaid debt of \$3,500.00 be dated as of the day upon which this said enactment takes effect as aforesaid.

NOW THEREFORE, the Municipal Council of the Town of Lacombe, in open council assembled, enacts as follows; that is to say:

1. That it shall and may be lawful for the Mayor and Secretary-Treasurer of the said Town of Lacombe in the said Province of Alberta to borrow on behalf of the said Municipality of the Town of Lacombe the sum of Three Thousand Five Hundred (\$3,500.00) Dollars and to issue a debenture of the said Municipality; and the said Mayor and Secretary-Treasurer shall be authorized to execute the said debenture for the above named purposes and for no other.

2. The aforesaid debt of \$3,500.00 along with interest thereon at the rate of 6 per cent. per annum shall be made in twenty equal aggregate yearly instalments of \$306.13 each as to both principal and interest from the date of this enactment taking effect, the first of such said instalments of principal and interest to become due and payable in one year from the aforesaid date, and the last of such said instalments of principal and interest shall become due and payable in twenty years from the date of this enactment; and the said debenture shall have coupons attached thereto for the payment of the said instalments of principal and interest, which shall be payable, as aforesaid, at the Union Bank of Canada, at the said Town of Lacombe.

3. The said debenture shall be dated as of the day upon which this said enactment takes effect and be signed by the Mayor and Secretary-Treasurer of the said Municipality and also have the Corporate Seal of the said Municipality attached thereto, and the said coupons shall also be dated, as aforesaid, and be signed by the said Mayor and Secretary-Treasurer.

4. In addition to all other rates and taxes annually levied and collected by the said Municipality there shall be also annually levied and collected, as aforesaid, a rate on the currency of the said debenture, on all the rateable property in the said Municipality, by way of special rate or rates therefor, the sum of \$306.13, being the amount of the said aggregate yearly instalment, payable as aforesaid, in respect of the said debt, which said instalments (or such part thereof as shall not be met by the revenue derived from the present system of electricity lighting owned and operated by the said Municipality) shall be payable, levied and collected at the same time and in the same manner as all other rates and taxes of the said Municipality are annually payable, levied and collected.

5. This enactment shall come into force and take effect on the 7th day of July, A.D. 1914.

6. The votes of the electors of the said Municipality shall be taken on this By-law on Saturday, the Fourth day of July, A.D. 1914, between the hours of 10 of the clock in the forenoon and 7 of the clock in the afternoon, at the Town Hall in the said Town of Lacombe, and Edmund J. Tett shall be the Returning Officer for the purpose of taking the said votes by ballot for the purpose of securing the passing of this said enactment.

Read a first and second time this 26th day of May, A.D. 1914. Mayor Secretary-Treasurer

NOTICE.
I do hereby certify that the above is a true copy of the By-law which has been introduced and which will be finally passed by the Council in the event of the

The Russell Block Destroyed by Fire Yesterday Morning

About 10 o'clock Tuesday morning, fire was discovered in the upper story of the Russell Block, and an alarm immediately sent in to the fire hall. The brigade responded in quick time, and in a few minutes two strong streams were playing on the flames. The two upper storeys of the block were used by Mrs. Sherman as a rooming house, and many guests were in the building at the time. So fast did the flames spread through the building that although the lodgers were given immediate warning, there was no chance to save the row escape from death, two men and a woman having to be taken out of the third storey window by the firemen, and a gentleman and his wife, who had a room next to the one in which the fire started, escaped by a narrow margin, and had to leave all their belongings in the room. Fortunately no one was seriously injured. Had the fire started in the night, the result would doubtless have been disastrous, as every room in the building was occupied.

After a few minutes fighting the flames in the block, the firemen came to the conclusion that there was no chance to save the building, and put forth all their energies to protecting the adjoining stores. That their efforts were successful is shown by the fact that Gilmour's building, occupied by Frizzell & Gonn, although built right on to the Russell Block, was saved, the firemen stopping the flames at the east side of the building. While the brigade was working on the fire, dozens of citizens were busy keeping the flames away from Fortune's Livery Stable, across the road. The wind was blowing directly on the barn, and that it was saved is a miracle. A bucket brigade was formed, and hundreds of pails of water were dashed against the sides and on the roof, with the result that it is still standing. At times the heat became almost unbearable, but the willing workers kept right on, knowing that if the barn caught there was small chance of saving the lumber yard behind and all the buildings on Railway street. So fierce was the fire that inside the barn, in the loft, the sliding beam came so hot that one could not keep a hand on it, and this, with the falling cinders on the roof and in the yard, kept everybody busy.

The ground floor of the block was occupied by Davey & Craig's Billiard Room, and Watt & Hay's Gent's Furnishing Store. The former firm lost everything, and although Messrs. Watt & Hay got most of their goods out of the building, they still sustain a very heavy loss. Both firms carried insurance.

Great credit is due the brigade for their work at this fire. Never did men work harder, and the surrounding buildings left standing are monuments to their fire fighting ability. The fire engine was in first-class order and threw a strong stream for several hours.

The loss of Messrs. Craig & Davey, owners of the building and the billiard room and cigar store, is estimated to be in the neighborhood of \$12,000, with an insurance of \$7,000.

Mrs. Sherman's loss will be about \$2,500, with only \$1,000 insurance.

Watt & Hay will sustain a heavy loss, for although a greater portion of the stock was saved from the flames, it was badly damaged in the handling. They carry insurance to the extent of \$5,000. They have secured temporary quarters in the building on Dalmage street, north of the Empress Hotel, where they will probably open for business as soon as the adjusters get through. Frizzell & Gonn have sustained a loss, which is covered by insurance, as is also the loss of R. G. Gilmour. These latter gentlemen had much stock destroyed by removal. They will reopen immediately in the old stands.

While the fire was at its height, and it looked like a clean-up as far as the lane, Messrs. Denike & Bulger, jewelers, had their store front covered with sheet iron, converting same into a fireproof building. Fortunately the fire did not reach them.

Messrs. Watt & Hay, together with the other business men interested, wish to extend their sincere thanks to the citizens who worked so hard to save their stocks.

Early in the fire, Albert Boyd, who was assisting the firemen, was badly cut on the head by a falling smokestack from the top of the building. Dr. Simpson attended to his injuries and he was soon at work again. This was the only accident during the day.

Davey & Craig will rebuild in the near future, and purpose putting up a solid brick building. The corner is one of the most desirable in the business section. The origin of the fire is unknown. When first noticed the fire was raging in the corner room on the third storey. No one was in the room at the time.

Initial Announcement of Lacombe's New Jewelry Store

Having leased the store in the new Royal Bank building for a number of years, I purpose conducting a Jewelry business in such a manner that it will interest you to become one of my customers.

I will handle nothing but good reliable goods, only such as can be guaranteed, and my prices are a little lower than the regular, thereby enabling you to save something on every purchase. I am a graduate of the Canadian Ophthalmic College of Toronto, where I attended, taking a full course and obtaining my diploma. The business of fitting Glasses is one of our strongest points. Glasses correctly fitted for every eye defect where Glasses are of any use. Watches repaired in shortest possible time.

JOHN DEERE IMPLEMENTS

Triple Gang with Horse-Lift

You Can Do 33 1/3 Per Cent More Work

Think of a man increasing his efficiency 33 1/3 per cent. Think of actually doing 33 1/3 per cent more work in a day than formerly. Think of doing all this extra work simply by adding another horse to your team. That is exactly what can be done with a John Deere Triple Gang. But that is not all. The work will be easier for both the man and the horse. Then think of the money—the actual money saved. Do you know of any other place on the farm where you can do 33 1/3 per cent more work practically without increasing the expense?

GAINS 16, 24 TO 28 INCHES EVERY ROUND

The John Deere Triple Gang is made in two sizes, three 15-inch or three 18-inch rows, consequently, cuts either 16 or 24 inches. Consider what it means to turn a strip of ground a yard or more wide— a share gain from 24 to 28 inches every round over a two bottom gang, plus the corresponding size.

Full information for the asking.

SNAPS SNAPS

We have only 2 12-16 Disc Harrows, price \$25.00; also 4 Walking Plows, suitable for ploughing sod, price \$10.00 each. Land Packers at reduced prices. Corn King Manure Spreaders at reduced prices. One 14-inch Brush Breaker at \$20.00; a snap. Three Empire Cream Separators at \$30.00 each.

A FULL LINE OF OTHER MACHINERY.

ALEX. LESLIE, Lacombe

IT TAKES WELL

Yes, our lumber takes well with everybody who likes good, sound, bright, dry, well manufactured stock. That's because we're pretty particular and finicky ourselves when it comes to buying our stock from the mills. We've found out that particular lumber buyers like to buy of a particular yard where particular care is taken to handle only particular goods. That is why particular buyers like to trade with this particular yard. We want your trade, and you'll be glad to give it to us after you once see how well we serve you.

CLEARANCE SALE OF MILLINERY

All this month I will hold a Clearance Sale of my high class Millinery Stock, consisting of:

Millinery, Children's Wear,
Lace, Auto Bonnets,
Trimmings, Etc.

Everything must be cleared out this month, and you can get some great bargains if you hurry up. Remember—Every Day This Month.

MISS MAILE,
NEXT TO POST OFFICE.

The Need of Summerfallowing

One of the chief factors which is impressed most forcibly on the minds of eastern farmers visiting the west for the first time is the factor of waste. "Down East" farmers would hold up their hands in dismay at many of the methods which are practiced in this western country. To some extent this criticism is justified, because any thoughtful man can find many instances of carelessness on the farms to which useless land is due, but at the same time this is not true of a large number of methods which, by reason of the circumstances under which they are practiced, are followed generally throughout the three prairie provinces. One of these methods is that of summerfallowing a portion of the farm each year. That a large portion of the land, in many instances nearly a third of the farm, should be plowed, constantly re-worked and allowed to lie idle all summer is, on the face of it, a very wasteful proceeding, even if the interest on the value of the land is the only loss taken into consideration, but as long as all grain growing is practiced to any extent the summer-fallow must be made use of.

It is found that after a piece of land has grown constantly, the same crop year after year, that the yield becomes lower as time goes on, until it becomes necessary to lay the land off for a year to allow it to regain some more of the elements of plant food of which it has been depleted by constant cropping. Different crops require different amounts of the various food elements contained in soils, and since a grain crop, to reach maturity, usually uses up its available plant food more quickly than it is produced in the ground, the yield is lower and the stand in the field is generally less. This allows of another factor entering into consideration, namely, that of the growth and increase of weeds in land cultivated for any long period. Grain plants require a kind of plant food, weed plants another, and when the stand of the grain plants gets less, more room is given for the weeds to develop and this is one of the conditions which makes the adoption of the summer-fallow so valuable. More than this, however, in many parts of the west, the rainfall does not amount to more than fifteen to sixteen inches during the year, and since it has been calculated that three inches of rainfall are required to produce ten bushels of wheat, it is evident that, in order to have a sufficient margin of available moisture to produce a paying crop some means whereby moisture can be stored up for use must be put into effect. Hence the chief object of summerfallowing. If the idea of storing up of moisture is kept constantly in mind when the plowing and subsequent tillage are being done the land will be worked so as to give the best returns.

As someone has said, "There are two essentials to the conservation of moisture; one is getting it into the soil, and the other is keeping it there." Now, the more open and porous the soil is, the more water it will be able to take up. To illustrate, plowed soil might be likened to a sponge, while unplowed soil might be represented by a block of wood of the same size as the sponge. If an equal amount of water is poured on each of these materials it is obvious to anyone that the sponge will take up and retain more of the water than the block of wood. Hence the necessity for deep plowing. Deep plowing is rightly discriminated against in the spring for the reason that it tends to bring too much cold soil to the surface, which takes too long to be broken down by the weather into available plant food, but in summer-fallow, matters are different. The land is to lie open to the action of the weather for fully nine months, and sun, rain, wind, frost and snow all will do their part in decomposing the compound constituents in the soil which may be readily taken in by the growing crop. More than this, there must be an open porous layer formed with which to capture as large an amount of moisture as possible throughout the year and hence the deeper the plowing the more water there will be retained.

The practice in some localities is to plow the land twice during the year, shallow the first time and as deep as possible the second time. This is a good practice in very sticky districts, the object being to get the surface weeds to germinate right away so that they may be killed with the next working rather than plowing them in deep with the possibility of their coming up again at a future plowing. Some weed seeds, especially those belonging to the mustard family (Cruciferae), among them being sink weed, are provided with an oily covering shell, which retains moisture for years. Such seeds will remain in the ground for varying periods before they eventually decay. By plowing twice more moisture is conserved, but from observation of actual western conditions it must be admitted that in many instances the intention to plow twice is bona fide, but when the time actually comes, too much has been left for summer-fallow, say, has been left upon the farmer before he realizes it, the weather has been very unfavorable, and the outcome is that a large portion of the land is left after having only been plowed shallowly. Rather than this should occur it is better to plow deep once and in any event a large portion of the benefit to be derived from the first shallow plowing can be obtained by double plowing the land as soon as seeding will allow in the spring. In this way weed seeds will be encouraged to germinate and moisture will be kept from evaporating from the land. And now for the second requirement of moisture conservation, namely, the water in the land, as soon as it is plowed, should be harrowed. It will be found to be economical to follow the plow immediately with the harrow. In any case all the plowing should be harrowed on the same day it is plowed. A good plan, which the writer has found to be exceedingly practical and economical, is to lead a horse (a spare horse is available on most farms) behind the plow, having attached to it one section of harrows. This will cover more than the two fourteen-inch furrows, and a very good tilth will be the result. The use of this method is scarcely any added trouble, and the work done together with the amount of moisture saved, will mean bushels in the crop in the following years. The point is this: When the soil is first turned over, it contains moisture, hence it is somewhat plastic yet mellow or crumbly. At this time it readily breaks down into fine particles which lie close together and form a compact mass, there being less surface area exposed through which, although the air freely circulates, the action of the sun and wind cannot readily withdraw the moisture. If, on the other hand, the soil is allowed to remain unharrowed, the wind and sun have full play through the many openings to dry the soil out, and it then becomes hard and chunky and requires two or three times as much working to get it into anything like the tilth which would have been obtained by harrowing immediately after the plow. But why does harrowing the plowing keep the moisture in? Moisture in the soil rises to the surface by means of a physical law known as capillarity. The particles of soil form small hair-like tubes in the ground, through which the soil water rises. If this rise of the soil water is not checked very soon a great deal of the moisture will have risen to the surface and will have evaporated and lost to plants by the sun. Harrowing fines the surface soil to form a blanket of dust or dust mulch which is composed of particles finer than those in the lower earth and hence the small tubes are disconnected and stopped up by the finer soil. As long as this soil is kept fine it serves its purpose in keeping the moisture in the ground, but the tendency is for this top layer to become gradually saturated. This is the case especially in clayey soils, since they have a particular property by means of which they attract moisture. Of course as soon as the mulch becomes wet connection is made with the moisture in the surface, and rapid evaporation takes place. The point to remember is to always keep a fine, dry dust mulch on top of the summer-fallow. Harrow after every rain or even when the weather has been damp. Never allow a crust to form on top of the ground.

There is another equally important part which summer-fallowing plays in farm management, and that is in relation to the control of weeds. Constant cultivation, such as is essential to this method, serves the purpose of destroying immense quantities of the weeds which it has been impossible to deal with when the crops have been growing on the land. Some of the implements used to keep a fine tilth in the land are just the ones to control special weeds. Take the Canada thistle, for example. The best method of controlling this perennial is to keep its leaves covered from the sunlight. This can best be done by the duck-foot cultivator, an implement which, at the same time, puts the ground in first-class shape for retaining moisture. The same is true also in the control of such grasses as alfalfa, which has to be supplemented by the harrows, which will collect the root-stocks by means of which this grass spreads. These should be put in piles, usually at each end of the field, where the harrows are cleaned, and burned. These are some weeds, however, which summer-fallowing does not seem to have very much control over,

chief among which are wild oats. About the best possible means of controlling wild oats, once they have been allowed entrance onto the farm—because, after all, "prevention is far better than cure"—in coping with the weed problem, just as the farmer should be to dice the summer-fallow land early, then plow and harrow and immediately sow a light crop of oats or barley. The crop is then cut green before the weeds have a chance to seed. In this manner, while less moisture will be conserved, in most of the western districts sufficient will be retained, besides having caught and destroyed many of the weeds, which cause an enormous loss annually to the farmers, in threshing, freight, dockage, and lower grade in the marketing of their staple product.

A good practice, and one often followed in conjunction with summer-fallowing, is to plow early and seed down to a light crop of oats—about a bushel to the acre. Then, when the crop is fairly tall, say ten or twelve inches, depending largely upon the special needs of the farmer, to turn a bunch of sheep or cattle to eat it down. This plan has many advantages. If sheep are turned on they will practically clean the land of weeds, since they crop so closely to the ground, thus reducing the height of the weeds and they will add to the fertility of the ground with their droppings. Seeding down in this manner has an even greater advantage still in that it tends to overcome one of the difficulties of summer-fallowing, namely, that of blowing the land, the fibre, which is the binding material in the soil, is exposed to the weather action, which has the effect of rapidly decomposing it. As soon as this cementing material is lacking in the soil it is easily blown from place to place by the wind, it tends to become more sticky when wet, harder or more baked when dry and less able to retain moisture. As soon as the soil is sown as is described above, in addition to providing pasture for the stock it will keep the land from being blown about by the prevailing winds. A system of summer-fallowing is not the most economical method of growing crops, the management of the farm, but while a system of all grain farming is carried on over a large area, it is the most expedient, in fact almost the only practical method of following it. All constantly growing grain must have a rest. In this country moisture must be absorbed and stored. Hence the points to keep in mind in connection with summer-fallowing are to dice first, plow early and deep, harrow immediately, pack if the land requires it, either seed down to a light crop of grain which will be subsequently eaten down by stock, or else constantly top work the land all summer long, and in the latter case, in view of the control of certain weeds and the constant upkeep of a good dust mulch.

CORN HAS ITS PLACE IN WESTERN CANADA

The idea is common that there is no place for corn in Western Canada. A few men of this opinion were universal. It is, however, being more and more modified with the passage of the years. Many of the farmers are beginning to understand that corn is going to have a place of very considerable importance in the west. First, it will furnish food for the stock which these men have kept more numerous than at present. Second, it will aid greatly in the destruction of noxious weeds. Third, it will help materially in the retention of soil moisture, which will aid in the growing of the next crop. Fourth, it will furnish stock fodder for cows and other cattle in summer and succulent for the same in winter. It will also be grown to some extent with a view to furnish material for swine in the fields where it grew. Where any considerable amount of live stock are kept on the farms the growing of corn is a necessity. Grasses from other sources without corn will not produce enough of forage. The less the rainfall the less is the yield of grasses, and the greater, therefore, is the necessity for growing corn. With a rainfall of 10 to 15 inches the average, from three to four tons of cured corn for fodder uses should be grown to the acre. With a rainfall of 15 inches, the yield should run from two to three tons per acre. With a rainfall of 10 to 15 inches the average, from one and a half to two tons of these yields are larger than can be obtained from any other source in these areas, not excepting alfalfa. The grasses of the prairie will not give more than one-fourth of these amounts, and the fodder is of excellent quality. If well cured it will be practically all consumed when fed to live stock.

The grain fields of the prairie are not growing the extent to which weeds prevail in them. If these are to be destroyed by cultivation the land must be sum-

mer-fallow occasionally or it must be planted to corn. The labor of keeping a corn field clean is somewhat greater than the labor involved in maintaining cleanliness in a summer fallow, but the difference is not very great. The extra labor called for is abundantly repaid in the crop of fodder that is reaped.

The place for corn is therefore one of much importance, even north of the parallel of 40 degrees. The kinds of corn that will be grown will vary with the purpose for which they are grown, but when grown to provide fodder that is to be harvested, the variety must have the following requisites: It must be tall enough to admit of conveniently cutting with the grain binder or the grain harvester. It must also mature or nearly so with the coming of the autumn frosts. This does not mean that it must bear much grain. The more that it will bear the more valuable it will be, but fodder may be valuable that has produced little or no grain. In order to best fulfill all these ends, it is not improbable that some kinds will fulfill the conditions required even better than the varieties that we now have. Two of the most valuable varieties at the present time are known as the Northwestern Dent and the Mercer Flint.

REPORT DISCOVERY OF ASPHALT BED NEAR MILLET

The discovery of a large bed of asphalt northwest of Wetaskiwin was reported Thursday morning by M. R. Stearns, of Edmonton, who has filed oil, gas and mineral claims on two sections of land in that district. The exact location of the bed is N.W. quarter 4-27, west of the 4th, or about sixteen miles west of Millet, close to a small lake. The discovery of the presence of asphalt was made by a farmer in the district, who, while plowing, turned up a small quantity. He did not know at the time it was, but one day when Mr. Stearns was on the farm, he saw it. The sun had been strong and had melted the asphalt, making it run like tar. He immediately filed oil and mineral claims on it. Investigation made shows, it is said, that the bed extends over several sections at least and possibly much more. It varies in thickness from a few feet to as much as fifty feet in thickness. Analysis on Thursday, according to Mr. Stearns, shows that the asphalt contains a large percentage of oil. Indications are present that oil will be produced when a well is sunk.

\$12,000 REWARD FOR THE ARREST OF AMISK MURDERERS.

Twelve hundred dollars reward is now offered for the apprehension of the inmates desperadoes who were connected with the murder of James Chivas, justice of the peace, at Amisk on Saturday, May 30. Every available man of the Mounted Police force is engaged in the search, and the roundup of the men is confidently expected. The provincial government will pay \$200 for the arrest of each man and the Dominion government a like amount.

FATAL ACCIDENT.

Geo. Walters, met with a fatal accident on the farm of C. A. Julian Sharnan, Red Deer, about noon on Saturday last. It appears that the deceased was working around the barn and slipped at the entrance, striking his head against the floor, fracturing the skull. He was thirty years of age, and came here from Toronto about nine months ago. As far as is known, he was single, and an upright, temperate man. It is supposed that the deceased took a fainting fit and fell, without any attempt to save himself, fracturing the skull in the temple, just back of the temple. Dr. George enquired into the matter, but did not consider it necessary to hold an inquest.

Mr. Sharnan took charge of the goods, and the young man, which have been handed over to the public administrator.

PROGRESS IN DAIRY FARMING.

In Western Canada dairy farming is steadily on the increase. In ten years the cow population of Manitoba increased from 141,481 to 155,337; in British Columbia from 24,535 to 33,953; in Saskatchewan from 56,634 to 121,146; and in Alberta from 46,101 to 147,687. I would call special attention to the increase in the latter province, Alberta is ideally adapted to dairying and mixed farming, and men who have travelled extensively throughout the dairy districts of America predict the time is not far off when Alberta will be the rival of any other dairy province or state on the American continent.

ARCHBISHOP MATHESON ON LIQUOR QUESTION.

At the meeting of the Synod of Rupert's Land at Winnipeg this week, Archbishop Matheson said: "I want to have a policy that Anglicans can adopt and stand shoulder to shoulder with their brethren. We Anglicans want a policy on the question so that it shall be said no longer that we are cold on the question or that we are allied with the liquor interests. We must have a policy and not stand under the stigma that the Church of England is doing nothing, or that it is linked arm in arm with the liquor interests."

Money In Your Pockets

Every farmer read this carefully. It is to your own best interests and money in your pockets.

In an interview with Mr. Rainey, of the Clover Leaf Farm, six miles west and 1 mile south of Blackfalds, the Western Globe has authority to say:

To encourage farmers to look forward to breeding better horses, Mr. Rainey, formerly a director of the Alberta Horse Breeders' Association, has placed his champion, Clydesdale Stallion, Citizen's Best (9949), by Imported Royal Citizen, owner of Agnes, in service at the Clover Leaf Farm, S.R. 1 Sec. 18-30-27 W. 4th, and those who wish to improve their horse flesh can avail themselves of the service of this magnificent Clydesdale, Citizen's Best (9949), grand champion two-year-old at the Coast, and champion at Calgary and second in open competition of fourteen Clydesdales, seven of which were imported. The horse is in splendid breeding condition and the fees are placed as low as to discourage breeding to Grades and raise the standard of breeding generally throughout the Lacombe district. Only \$9.00 will be charged to insure with foal, and all mares pastured absolutely free. The Clover Leaf Farm, the home of Citizen's Best, is fenced completely with smooth wire, no barbed-cut horses there. A certificate of breeding is issued for each mare.

Citizen's Best the past season has proved himself exceptional sure. This Clydesdale could be induced to stand two days out of each week away from home where most wanted. Prospective breeders are always welcome to the farm and see the progress of Citizen's Best before booking. They are a credit to any horse. Special terms can be arranged for other than insured mares. Send mares direct to farm, or write

Edwin Rainey,
Blackfalds, Alta.
(M27-4c)

JUDICIAL SALE OF FARM LAND, SITUATE NEAR LACOMBE, ALBERTA.

Pursuant to Judgment and Final Order for Sale, there will be offered for Sale subject to the conditions and reservations expressed in the Order, and from the Crown, with the approbation of a Judge of the Supreme Court of Alberta, by Mr. S. W. Paisley, Auctioneer, at the office of John McKenty, in the Town of Lacombe, in the Province of Alberta, on Saturday the 20th day of June, A.D. 1914, at 2 o'clock in the afternoon, the Southeast Quarter of Section Twenty-two (22) in Township Thirty-eight (38) and Range Twenty-five (25) West of the Fourth Meridian, in the Province of Alberta.

The said Quarter Section is situate Southeast of Lacombe, about six and one-half (6 1/2) miles from a siding on a branch of the Canadian-Northern Railway, and there is a school about two and one-quarter (2 1/4) miles distant. The soil is a sandy loam with a clay sub-soil, and has a depth of from Ten (10) to Twelve (12) inches. A large part of the said land can be cultivated and the remainder is for the most part suitable for grazing purposes. The property in question will be offered for sale subject to a reserved building which has been fixed by a Judge.

The purchaser is at the time of sale to pay to the Vendor's Solicitors a sum equal to ten (10 p.c.) per cent. of the total price, and the balance of the purchase money is to be paid within sixty days (60) without interest, into Court at the City of Wetaskiwin, in the Province of Alberta, to the credit of an action therein, and upon payment of the said balance the purchaser is to be entitled to a Transfer or Vesting Order and to be let into possession.

Such Transfer or Vesting Order will be obtained at the Vendor's expense.

In other respects the terms and conditions of Sale will be the standing conditions of sale of the Supreme Court of Alberta.

Further particulars can be had from Messrs. Odell and Russell, Wetaskiwin, Alberta, Solicitors for the Vendor, or from John McKenty, Lacombe, Alberta.

J. I. POOLE, C.S.A., J.D.W.

BASEBALL

The Lacombe Advertiser's baseball club have now entered the Central Alberta League, composed of Didsbury, Olds, Bowden, Innisfail, Red Deer and Lacombe, so the local fans will be supplied with some fast games during the season. There will be five games at home and five away. As it is impossible to get teams to come to Lacombe to play exhibition games, and as Lacombe is becoming a good baseball town, the boys decided to enter the league. Although the schedule had already been arranged, the officers of the league were kind enough to re-arrange it so Lacombe

could get in. The only thing necessary to make this a success is the patronage of the public. It is quite an undertaking for the boys to finance it, but they feel sure the citizens will respond liberally. It will also be a good ad. for the town, and there will be quite a number come in with the visiting teams. Now it is up to Lacombe to help the ball team by their support. It will be necessary to raise \$200 to finance the games, so govern yourself accordingly when you come to the games. Five games at home club, means \$40 a game. Now, all to-been good crowds at all the games played here so far—crowds that should at least have netted \$50, but when the collection was counted it fell far short of \$25. There is no one making any money out of the ball team, and the boys, who are all working in the town, lose considerable time and money during the season, but are willing they should lose a little of their time to help keep sport going something so the citizens may have a place to spend an hour in the evening, so boost her along and encourage the boys. At the end of the season a statement will be made showing the receipts and expenditures of the three games played, the locals have done very well. Ponoka has a good team, and could hold its own with any amateur team in Alberta. We will endeavor to slip one over next time we meet.

Central Alberta Baseball Schedule—First Home Game Friday

AT	Lacombe	Red Deer	Innisfail	Bowden	Olds	Didsbury	Take in the HOME GAMES And Help to Advertise LACOMBE Admission 25c
Lacombe	Central	June 19	July 9	June 26	June 9	July 1	
Red Deer	July 3	Alberta	June 9	June 23	June 2	June 16	
Innisfail	June 12	June 20	Baseball	June 19	June 23	June 2	
Bowden	July 7	July 1	June 16	League	July 3	June 9	
Olds	June 16	June 12	July 1	June 5	Base Sports	June 23	
Didsbury	June 23	June 5	July 3	June 12	June 19	Play the Game	

THE METHODIST CONFERENCE

List of active ministers for the Lacombe district conference year 1914-15: Lacombe—Rev. E. T. Scragg. Blackfins—Rev. F. E. Davis. Weisaville—Rev. R. J. Irwin. Bentley—Rev. S. A. Chauncy. Rimbey—Rev. W. J. Ashton. Ponoka—Rev. G. F. Driver. Clive—Rev. W. L. Bradley. B. A. B.D. Mirror—Rev. H. L. Dougan. B. A. Bashaw—Rev. R. Clegg. Battle River—Rev. R. B. Steinhauer, B.A.

Rev. E. H. Whitford goes to Alberta College, Rev. R. J. Irwin to Victoria College, Toronto.

Rev. E. J. Tate is appointed to Edmonton. Mr. Irwin will be in charge of the Weisaville and Gull Lake appointments for the summer season. Rev. W. J. Chapman, of Bashaw, is appointed to work in the Peace River country. Rev. G. F. Driver assumes the responsibility of chairman of the Lacombe district.

Delburne News

Rev. and Mrs. Haddon returned on Wednesday from Calgary, where they attended the annual conference of the Methodist church.

Mrs. Kent spent a couple of days last week at Lonsana.

S. J. Smith made a business trip last week to Calgary.

The contract for the new school to be built in Delburne this summer has been let to H. S. Bodwell. The excavating will be done by H. J. Heston.

Mr. Donaldson had the misfortune to lose his \$2,000 stallion last night. The horse was in the Delburne livery barn for the night and got tangled up in the manger and broke its neck.

Lacombe District News

Wittenburg News

Paul Brodersen and son attended the bull sale in Lacombe. Jim Welch and Orlaf Ness have returned from their bear hunting expedition, and were successful in capturing a dandy.

Mr. and Mrs. John E. Dyar and family arrived back in the Valley after an extensive tour through California, but think there is no place like Sunny Alberta.

Mr. and Mrs. George Cummings are shortly leaving this fine Valley for an extensive touring trip to Europe, via Vancouver and Australia, and will be in London next the Horse Show.

Miss Clara Simmons arrived back from Calgary. We hope she will stay, as it is hard to see the nice girls leave us.

Sunday school was organized on Sunday, May 31st, and will be held at 2:30 p.m. Old and young cordially invited.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as may be required. This remedy will also liquefy the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by City Pharmacy. (3)

Ponoka News

A sitting of the District Court was held on Friday, Judge LeClerc presiding. A couple of cases were down for hearing, viz., Felstrom vs. Stewart, in regard to a threshing contract. The decision was somewhat in favor of Felstrom. The other case was a dispute regarding a road in the Brooks district, when Mr. Miller sued L.I.D. No. 429. The case was thrown out on a technicality.

Inspector Nelson has a few programs left of the coming summer session for teachers at the Provincial University. Any teacher who is interested may have one of these upon application while the supply lasts. Lecturer was strongly represented in town Saturday. Among the number were Mr. and Mrs. J. Kindley, W. R. Archibald, W. Taylor, and the McEttredge brothers. No secret, the people of that district have oil to burn. H. M. Whitcomb and son, Mark, are away to the Peace River district, where they are to spy out the promised land. Bob has been studying over that beau-

CLEAN—No dust or flying ashes. Ash chutes guide all ashes into convenient pan.

McClary's Sunshine Furnace
No ash shovelling necessary. See the McClary dealer or write for booklet.
Sold by A. M. CAMPBELL

Elkhorn News

Elkhorn baseball boys played Pleasant Hill Saturday afternoon at Morningside, Elkhorn playing a fast game. The most notable feature of the game was the terrific hitting of Raymond Beach. The boys are thinking of getting him into the league.

Messrs. Johnston and Campbell, of Morningside, passed Tuesday evening with Mr. and Mrs. O'Connell. After a game of billiards, the evening was passed pleasantly at playing cards.

The ice cream social at Morningside was well attended. A very good program and the test of ice cream, John Bell being the champion ice cream eater. Six or seven dishes is a small average for Mr. Bell.

Mr. Perkins has just completed a well for Mr. Riegler, of Fairview.

Miss Stephanie Perkins visited Sunday with Miss Brash.

Miss Mollie Sweet and P. H. Clemens, Arthur and Charles Sweet, were down to Blackfalds, Victoria Day, and report a very good time.

The Ladies' Aid met at Mrs. Clemens' last Thursday evening. About ten members and four visitors were present. The ladies had a very sociable afternoon.

Mr. Grierson is doing some breaking and making improvements on the place he recently purchased.

Mr. Clemens and Larson brothers went to Edmonton Monday evening to take in the race meeting. Mr. Clemens returned Wednesday. The other two evidently found other attractions and stayed nearly a week.

Each one of our lives has its joys. Old people should be happy and they will be it Chamberlain's Tablets are taken to strengthen the digestion and keep the bowels regular. These tablets are mild and gentle in their action and especially suitable for people of middle age and older. For sale by City Pharmacy. (1)

Morningside News

An interesting and enjoyable ice cream social was held at Morningside church, in aid of the church funds, on Friday, the 29th May. There was a large turnout of members and friends to enjoy the good things provided. Among the Ponoka visitors were Mr. and Mrs. W. B. Allan and Miss Luning. In the unavoidable absence of Mr. Jennings, the Rev. A. J. Milton occupied the chair. The chairman opened the proceedings with a few interesting and pithy remarks on the desirability of union among the churches, and a varied and enjoyable program was then proceeded with. The talent was mostly of a local nature, and the school children sang and recited their part with the usual acceptance. W. B. Allan lent variety to the program with a number of sketches, musical and otherwise, and Miss Dunning favored the audience with an eloquent effort. After the program was gone through those present were treated to a sumptuous repast of good things in the way of coffee and cake, and the principal item of the evening, the ice cream, was then meted out in the various portions. The evening was a most successful one, and the various prizes provided for the appreciative gathering. At a late hour, and after a highly enjoyable time, each and all dispersed for their various homes.

Rocky Mountain House News

F. W. Towler purposes leaving early in June for a visit to his old home in England.

J. L. Standish is doing well out on the line this week. His brother Leslie is in charge of the drug store here during his absence.

H. F. Lundy paid the town a flying visit on Thursday. Mr. Lundy reports a general move in this direction by oil companies. He expects a drilling outfit will be in operation here in the very near future.

Messrs. Kangas and Randall, of the Talmi school district, were in town Wednesday transacting business for the district. The school is up and will be opened as soon as the furniture arrives. This will make the third new school to open in this district this year.

On Tuesday afternoon at a few minutes to four o'clock, fire broke out in the old pool room adjoining Mr. Paulson's buildings in the old town. Mrs. Paulson had just a short time previously awoke from a nap when she heard a noise like an explosion. Almost instantly the flames burst through the walls and so quickly did they spread through the whole building that Mr. and Mrs. Paulson were only able to save a few things. Even their wearing apparel, with the exception of what they had on, went up in smoke. Mr. Paulson carried some insurance. At their time of life this is a serious loss to Mr. and Mrs. Paulson, and the sympathy of the community is extended to them in their loss.

Oyster Shell Grit and Flax Meal in any quantity at W. L. Elliott's. (M-41)

Delburne News

Mr. and Mrs. A. E. Kent spent Wednesday of this week with Lousiana friends.

A number of Delburnites drove to Pine Lake for the holiday.

Mr. and Mrs. Chas. Paxton spent from Saturday last until Tuesday visiting Mr. Paxton's sister at Redcliffe, Alberta.

Rev. and Mrs. Haddon are in Calgary this week attending the annual conference of the Methodist church.

Miss Vera Reynolds, of Edmonton, spent Sunday last in town, the guest of her sister, Mrs. S. A. Gill.

W. G. Clendening made a business trip to Deer last week.

Mr. and Mrs. J. G. H. and family were in Delburne this week.

Mrs. James Gamble, who has been suffering for some time with eczema, has gone to Montreal to take treatment at the hospital there.

Mrs. and Miss Knight, Alexandria, Missouri, are intending to spend the summer here with Mrs. Mewburn. They expect to arrive about the first of June.

Mr. McKay, of the Merchants' Bank staff spent the holiday at Wetaskiwin.

Mr. Morris made his regular trip to Elmore on Tuesday in connection with the branch of E. C. D. there.

Miss Clendening entertained at a large tea in her home on Third Ave. on Thursday afternoon.

Mr. Brown, of the Department of Neglected Children, Edmonton, was in town on Thursday last.

Messrs. Gill, Hampton, Jestin, Eley and Gorrell attended a meeting of the Masonic Order at Alix last Friday night and the latter two received their first initiation.

The elevator which is being erected on Station street will have a capacity of thirty-five thousand bushels. It is now in charge of a large number of men.

Lousiana football team came over to Delburne on Victoria Day and carried off the honors of the day. The score was 2-0 in their favor.

Erskine News

Born, June 4th, to Mr. and Mrs. Wm. Olmstead, a son.

A very pretty wedding took place in Calgary on Monday, June 1st, when Miss Margaret Girard, of Calgary, was united in the bonds of holy matrimony to Mr. Jean Babonney, of Erskine.

George Root, accompanied by Mr. and Mrs. Fitch, have been visiting in Erskine the past week. Mr. Root has been buying wool in this district, while Mr. and Mrs. Fitch, who have just arrived from the States, have been looking over the country with the idea of locating. Mr. Fitch says the Erskine district looks good to him.

The game pulled off in Stettler on Tuesday was Erskine's game up to the 7th innings, when the umpire handed the game to Stettler with a couple of rotten decisions. But then it was the only way they could ever make it, and we really believe if the "would-be" seniors would only step out and let the juniors take their place in the league, Stettler would have a showing.

Nevis News

Mr. Harris, of the Church of England, was calling on the folks in town and close to, and has decided to hold service in the school house every first and third Sunday in the month.

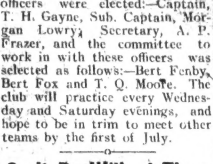

Ben Evans, one time foreman at the Ben Nevis coal mine, has been around all week visiting his many friends in this neighborhood. Ben has just come back from a visit to his people in Wales.

Where abouts? On Tuesday evening a couple of Calgarians arrived and on Wednesday morning went prospecting out west near the old Jackson mine and along towards Tail Creek. At noon they procured a couple of containers at the store and went out again. When seen at the station waiting for the westbound, they exhibited samples of a thick brownish fluid which they located down near the creek.

At a meeting held in Bert Fenby's, it was decided to organize a football team, and the following officers were elected: Captain, T. H. Gayne, Sub. Captain, Morgan Lowry, Secretary, A. P. Frazier, and the committee to work in with these officers was selected as follows: Bert Fenby, Bert Fox and T. Q. Moore. The club will practice every Wednesday and Saturday evenings, and hope to be in trim to meet other teams by the first of July.

Can't Do Without Them

Gin Pills the only things that keep him well.

Concrete walks need no repairs

THEY are not only best at first but are cheaper in the end than any other kind of walk. They are clean, permanent and safe. There is nothing to become loose nor are they slippery. They improve the general appearance of a house and are a source of great satisfaction to every housewife because they keep children out of the mud, prevent colds from wet feet and prevent dirt from being "tracked in" on floors and carpets. Equally important is the fact that they never wear out and never need repairs.

This free book "What the Farmer can do with Concrete" tells all about concrete walks and how to build them, and a score of other things needed on every farm. Write for it to-day.

Lacombe District News

Gull Lake News

The Gull Lake season has opened early this summer, and several Edmonton families are already down to their cottages for the season.

Mr. and Mrs. A. T. Mode, of Edmonton, arrived for a few days' stay at their cottage on Saturday.

Mrs. A. E. May and family arrived on Saturday and are settled comfortably at their cottage for the season.

Nearly all of the business places have opened up, so that anything may be secured by the cottagers.

Homers' guaranteed Harvest Oil, any quantity you want, at W. L. Elliott's. (M-14)

Rimney News

It is with a sad heart that your correspondent announces the death of Marjorie Lillian, the loving little daughter of Mr. and Mrs. N. Hough, who departed this life on May 27th, aged three years and 30 days. But what a comfort to know that the One who gave the little bud to earthly parents has taken it home to bloom in Heaven.

The funeral took place at Rimney on May 29th.

Safe in the arms of Jesus.

Safe on His gentle breast.

Safe from the world's temptations.

Sweetly her soul shall rest.

Mr. and Mrs. Hough and family wish to thank their many friends for their kindness and sympathy shown during the illness and since the death of their beloved daughter.

A quantity of good table potatoes wanted. Apply to F. E. McLeod, Lacombe. (J3-1c)

Bentley News

Heavy rains are visiting this section of the province, and farmers need have no worry about a drouth this season.

Carl Wicse is clerking for James McPherson at his Bentley store.

Bert Sharp and Jabez McPherson are improving the appearance of their lots by good fences along the street. Jabez is also building a shed for his threshing outfit, and has the foundation for his new residence laid.

Damon and Thorp shipped three carloads of hogs from Lacombe last week.

Most of the car owners and friends, and the football team, journeyed out to Clive last Wednesday and took part in the sports at that place, the football team losing to Clive and Chigwell.

A meeting is called for Tuesday night to arrange further for the celebration on Dominion Day at Bentley, and to get the committees to work.

A petition is being forwarded today to the Minister of Municipal Affairs, asking that this place be constructed into a village.

The delayed notices of the Oxford school district are being got into the mail this week, a new system of assessment, and over four hundred separate assessments have delayed the work.

C. F. Damron wants to trade a Ford car, 1914 model, for aeroplane, hydroplane, or motor boat, must be water-cooled, and have electric starter.

Can render service that will please.

J.P. McPHERSON, Notary Public and Conveyancer, Loans and Insurance, Issuer of Marriage Licenses, BENTLEY - ALBERTA.

Damron & Thorp, REAL ESTATE, LOANS AND INSURANCE, Bentley, Alberta.

A Quarter Section at \$1,600 cash if sold at once; 2 miles from Railroad. An acreage at snap prices, inside town limits of Bentley.

Agents for the Lacombe Farmers' Mutual Fire Ins. Co. Call and see us.

Halkirk News

A. L. Westcott and A. Jestin made a business trip across the Battle river last Wednesday.

Edgar, Jerry, C. Drake, E. Groves and J. James motored to Endling, Leo and Garden Plains on Wednesday last, making quite an eventful trip, as the car did not buck with them once.

F. A. Mills and E. H. Cudmore visited the Royal Ranch last Sunday to take in the bucking contest.

A number from the town and surrounding country drove to the Beaver dam north of town on Sunday and spent a very enjoyable day.

The Halkirk baseball team defeated the Willow Prairie Giants in Castor on Friday last by a score of 8 to 13. The Willow Prairie boys had rather a hard time of it finding a pitcher that could stop the Halkirk boys from hitting out their fielders.

E. Rayner, of Castor, gave splendid satisfaction as umpire. Some of the Halkirk boys got lost on their way home. We are wondering if they can give a satisfactory reason.

We are pleased to see H. A. Anderson and wife and family back in town after spending a month visiting friends and relatives in Ontario.

lowalta News

A special meeting of the U.F.A. will be held on Tuesday evening, June 16, at 8 p.m. for the purpose of ordering twine and other important business. All members are requested to attend.

An ice cream social will be held in the lowalta school house on the evening of June 19. Everyone cordially invited.

A. Frizzell disposed of a valuable horse in town last week.

G. Taylor returned from the Blindman Valley on Saturday last. He reports good prospects for a bumper crop in that district this year.

A number from this part attended the services in Spruceville on Sunday, May 31st.

We are glad to hear that H. Zelle is recovering from his recent illness, and hope to see him back at his old duties in a day or two.

Quite a number from here attended the Fairview school last week and report a good time.

Robt. Frizzell's chop, lath and shingle mill is now in operation.

L.I.D. No. 399

Council of above district met, all being present, with Jas. Sharp in the chair.

Minutes of previous meeting read, and it was moved by Miller, seconded by Foren, that they be adopted as read. Carried.

Moved by Miller, seconded by Southward, that secretary be instructed to write the Department of Public Works asking for a donation of a piece of land off the N.E. Sec. 29, 30-28-4N, which is required for road division purposes, and also for a survey to be made for the purpose of opening road up between Sec. 28-29, 30-28-4. Carried.

Moved by Foren, seconded by Southward, in view of finding of committee appointed to investigate the road diversion on S.W. 27-41-27-4, and between Sec. 5-6-7-8, 27-41-27-4, same to be charged to general fund. Carried.

Moved by Edie, seconded by Foren, that secretary be instructed to answer McDonald & Mc Bride's letter to the effect that the matter referred to will be inspected by a committee. Carried.

Moved by Edie, seconded by Foren, that this council appoint a committee of one to confer with Mr. Paisley about culvert referred to in his letter to the council dated May 14, the committee to report at next meeting of council. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Moved by Miller, seconded by Foren, that J. L. Storey be appointed a committee to inspect the culvert between Sec. 17-20, 30-27-4. Carried.

Southward, that secretary be instructed to pay Division No. 3 the sum of one hundred dollars for half share in grade road jointly owned by Divisions 2 and 3, ownership in future to be vested in Div. No. 3. Carried.

Moved by Southward, seconded by Storey, that the following accounts be paid and treasurer instructed to pay the same: Vickers & Kreske, 2.30; Atlas Lumber Co., 37.65; N. Morrison, 4.85; Trimble & Garland, 10.60; Municipal News Co., 2.14; Gourlay, 0.25. Carried.

Moved by Southward, seconded by Miller, that secretary be instructed to write the Department of Municipal Affairs for advice as to the best method of taking proceedings in collecting arrears of taxes on lots in subdivisions and farm lands. Carried.

Moved by Miller, seconded by Storey, that secretary be instructed to collect arrears of taxes on S. 1 of 11 and N.E. 1 of 2, 30-27-4. Carried.

Moved by Foren, seconded by Southward, that chairman and treasurer be instructed to renew the note due to Merchants' Bank to the amount of fifteen hundred dollars. Carried.

Moved by Foren, seconded by Storey, that the following labor pay sheets be passed, the chairman authorized to sign and treasurer instructed to pay the same: Pay Sheet D-14, Div. No. 4, \$65.00; Pay Sheet F-14, Div. No. 6, \$91.00. Carried.

Moved by Southward, seconded by Storey, that meeting be adjourned to July 11th, 1914. Carried.

JAS. SHARP, Chairman, E. WALTER SIMPSON, Sec. Treas., L.I.D. No. 399, Lacombe, May 30.

Arbordale News

The hard time social held by the Fairview Ladies' Aid, was a decided success. The church was full and some excellent hard-time costumes were prominent.

The winner of the best dressed lady hard-time was Miss Moore; gentleman hard-time, Mr. Ernest Whitcomb; boy's hard-time, Master Kermid Madison. The parade of the hard-times before the judges was certainly a side-splitting spectacle, and the judges had a hard time to pick the winners.

The program was an excellent one and shows great credit upon those who worked so hard to make this item a success.

The refreshments served after the program were up to the standard in excellence, and justice was done by everybody in disposing of it. The evening closed by singing the National Anthem, and everybody went home thoroughly convinced that it takes the Ladies' Aid to get up socials of good sound enjoyment and pleasure.

The regular meeting of the Arbordale U.F.A. No. 454, was very well attended. After listening to a short address given by Mr. Inglis and Mr. Rutledge of Lacombe, on Mutual Fire Insurance, the regular order of business was dispensed with.

Those who were predicting a dry season here this summer will have to admit that "it do rain, when it do rain, don't it?" to quote our old friend J. R.

We congratulate B. J. Butcher and his friends on their lucky discovery, and we wish them every success in the future.

MEAT SUPPLY IN BRITAIN IS NOT EQUAL TO DEMAND.

London, June 5.—A great campaign has been entered on by a section of the London press to forestall the threatened shortage in England's meat supply. The trouble, apparently, is a two-fold one, the diminution of cattle, sheep and hogs, and the ever increasing number of consumers of beef, mutton and pork with the inevitable increase of price.

H. G. C. Millman, superintendent of the Central markets, said yesterday:

"In spite of the large number of vegetarians in London and other parts of the country, Englishmen in particular, are eating more meat and wasting more than they did twenty years ago, and the meat supply has not increased proportionately to the demand."

"It is interesting to note the remarkable growth and decline of North American supplies to this country," he said, "principally fresh meat, 1,531 tons, from the American continent, and these supplies increased in volume year by year until they reached 140,000 tons in 1903."

"Last year the quantity of beef from the other side was only 10,000 tons, but the total 37 years ago. The truth is we look to Ireland as the future field for our meat supply. At the present time much more meat is produced, though it is not always local here. But I look to the near future to see Ireland sufficiently alive to the prospects of becoming the chief source of supply for the English meat market."

REPORT SAYS EMPRESS WILL BE RAISED.

Toronto, June 8.—A large financial and brokerage house of New York, which is heavily interested in Canadian Pacific railway securities, was this morning advised by a confidential source in Montreal that the sinking of the Empress of Ireland would be raised at once.

The report states that a diver went down to the wreck and carefully examined the hull for several minutes. His report to the C.P.R. officials discloses the fact that the cut in her side would not be a difficult matter to repair and that the ship is not so extensively damaged as might be imagined.

SIX MONTHS' HOIST TO FARMERS' BANK BILL.

Ottawa, June 8.—By a vote of 32 to 25, in which party lines were completely eliminated, the bill to reimburse the depositors of the defunct Farmers' Bank was given a six months' hoist by the senate tonight. Eleven Conservative senators voted for the six months' hoist, and twenty-one Liberals voted in favor of the amendment and fourteen for the bill. The vote itself was a peculiar one, as Senator Bostock, Liberal leader, voted of which it does not appear moved by Senator Power, one of his own followers, and supported a government measure. Sir Mackenzie Bowell voted for the six months' hoist, while Senator Macdonald, president of the House Bank, voted to reimburse the depositors.

SENATOR COFFEY DEAD.

London, Ont., June 8.—Senator Coffey, Liberal, died here today at his home. His death was responsible for the death of Senator Coffey, who had been confined to his bed for some time.

DISTRICT COURT SITTING

The case of D. S. Burke vs. Clink, which has excited considerable interest in the district, was tried by Judge Lees last Wednesday.

Burke sued the Clinks for \$235 for sawing lumber, although the lumber and a large quantity of logs were destroyed by fire before the job was finished. The Clinks counter-claimed for the value of the logs because they said the fire started from Burke's engine. The case took all day. The judge has now issued judgment that the Clinks are only owing \$218 for sawing, and that Burke owes the Clinks \$200 for the logs destroyed through his negligence. Accordingly, the result of the case is that Burke is owing the Clinks \$387 and costs. A. H. Russell and E. H. Jones were solicitors for Burke and Messrs. Macdonald and McBride for the Clinks.

At the same court, in the case of Rogers vs. Tona, the ownership of a horse was disputed, and McDermid vs. Johnson was regarding a cow. In each case the judge decided that the animal belonged to plaintiff. E. H. Jones was solicitor for the plaintiffs.

A compromise was arranged in the cases of Holmes vs. Scott & Sanger, and it was settled that the other cases on the docket were carried forward to next court, as the parties were not able to be present.

PHILIPPINE SELF-GOVERNMENT.

From the day that the United States took the Philippines from Spain, a large proportion of the people of that country, chiefly Democrats, but also many Republicans, has continually insisted that the islands be given self-government. There have been few advocates in the United States of keeping the islands as a part of the country permanently.

To do this, according to United States ideals, the islands would have to be made a State of the Union. They would have their two senators, who would have a say in the foreign affairs of the American nation. But far more serious than this would be the fact that the islands would have a representative in the House of Representatives proportional to their population, which is very large.

This representation would side strongly with the negroes in the United States, whenever a racial question, such as the Jim Crow cars, should come up for debate. With this objection to them on the part of the Southern States, and the many barbarous and semi-barbarous peoples, the Philippines will not be wanted as a State of the American Union. The only other future that can be contemplated, unless the United States accepts its present imperial relation to the dependencies, is that they shall be made a free, self-governing people, whose independence is guaranteed at least for a time by the United States.

It was feared by some that President Wilson, who is the first Democrat to become President since the Spanish-American war, would, by a sudden legislative act, take off the Philippines from all connection with the United States. Such a proposal was talked of as the extreme folly. Mr. Wilson has made one big blunder in his foreign work, and that is his treatment of the Philippines, as well as in his home policy, he has acted with the greatest wisdom. Instead of immediately abandoning the islands, he has, in practice, given them self-government, while leaving them under the protection of American troops and maintaining a nominal sovereignty. The government of the Philippines is like that of some half-emancipated British colonies. It consists of a lower house elected by popular vote, consisting of thirty members, and an upper house of a legislative council, consisting of three commissioners and a governor-general, making nine in all, appointed by the President. This commission had heretofore consisted of three Filipinos, five Americans and an American governor-general, making the Filipino representation in it one-third of the whole. President Wilson has changed this. The new commission consists of five Filipinos, three citizens of the United States and an American governor, so that the Filipinos on the commission can outvote the Americans. As practically the whole of the lower house is Filipino, this gives to them control of their own government, except for the power of the United States congress to veto any legislation which it does not approve.

It has been considered a little light-headed of anybody to suggest that the Filipinos were able to govern themselves and that the power of the United States might be withdrawn from here and them, doing it without any common sense being raised over the change. It is in this manner that Britain is proceeding with the much slower steps to give self-government to the Hindus. It is worthy of mention that the man who holds the position of minister of finance and minister of justice in the commission is a Filipino, as these officers are usually

Local Company Will Drill for Oil

For several years it has been known to the citizens of Lacombe that indications pointed to the existence of immense oil fields in the district west of Lacombe, especially around Wittenburg, and Lavista, and the discovery of oil in the Calgary field has had the effect of interesting local men in the opportunity at their door.

On Friday last a strong local company was formed here, several of our leading business men being the principals. It is their intention to secure several leases in the west country, and thoroughly prospect for oil. When they have settled beyond a doubt that prospect for oil are good, a limited amount of stock will be sold for development purposes, and a well will immediately be started. Among those interested are Messrs. F. S. Lewis and S. M. Colquhoun, two men of large experience in gas and oil drilling, both gentlemen having been prominent in this business in the great oil and gas fields of the United States. The others interested are Messrs. E. E. McLean, A. M. Macdonald, Chas. Watkins, N. W. Morrison, F. W. Graham, W. A. Shields and Jas. Walters.
